・学修方針(講義概要等)

English is the primary language of international medical communication, and nurses need good English speaking and listening skills in order to function effectively in any environment where they encounter English-speaking patients and English-speaking healthcare professionals, whether inside or outside Japan. English Speaking and Listening (ESL) is a course focused on developing these communication skills through active engagement with Internet-based materials relating to a wide range of topics in health and nursing. There will be a heavy focus on active learning through group discussions, oral presentations, and engagement with multimedia online resources, so active participation in class is a must. Classes will be conducted entirely in English so as to maximize exposure to the target language.

(和訳)

英語は国際的な医療コミュニケーションの主要言語であり、看護師は国内外を問わず、英語を話す患者や医療従事者と遭遇する環境があります。そこで効果的に機能するために、英語を話す・聞くスキルが必要です。English Speaking and Listening (ESL)は、健康や看護に関する幅広いトピックを扱ったインターネット上の教材を積極的に活用し、これらのコミュニケーションスキルを身につけることを目的としたコースです。グループディスカッション、口頭発表、マルチメディア・オンライン・リソースの利用など、能動的な学習に重点が置かれているため、授業への積極的な参加が必須となります。また、授業はすべて英語で行われるため、対象言語に最大限触れることができません。

・教育成果(アウトカム)

From video-based listening tasks coupled with multimedia online resources (Flipgrid, Nearpod, Line OpenChat, Quizlet, WebClass, etc.) pair or group discussion tasks, vocabulary-building activities, and the preparation and delivery of short English speeches, students will become capable of communicating effectively in professional contexts with English speakers, both native and nonnative, both abroad and in Japan.
